

Governing Board Diversity

The governors of Frieth School believe it is important that our board reflects the diversity of the school community we serve. We recognise that diverse boards promote inclusive school environments and provide diverse role models for staff and young people.

We regularly update the data on the diversity of the board, including data on age, gender and ethnicity using the Governing Board Diversity Form provided by the National Governors Association. We are a relatively small board and so we will always review this data when recruiting new members considering any significant changes in the diversity of our staff and pupils. We use this data to inform the recruitment and training needs of the board and ensure that there is always a diverse range of perspectives around the table to support robust decision making.

Due to our relatively small governing body we do not publish this diversity data online as individual governors could be identified and we have a legal obligation to protect their personal data.
